BASIC VERSION OF THE LOGO

The Resomix brand logo is the essence of its identity. Designed with simplicity and legibility in mind, it combines modern typography with a balanced composition to create a universal mark. It is a key element of the visual identity, used on all major brand materials, ensuring consistency and recognition.

RESOMIX

The outline logo can also be used as a supplement, on larger formats or in a pattern.

RESOMIX

ALTERNATIVE VERSIONS OF THE LOGO

The Resomix brand also offers a compact version of the logo, ideal for applications where the horizontal version does not meet space requirements.

Signet

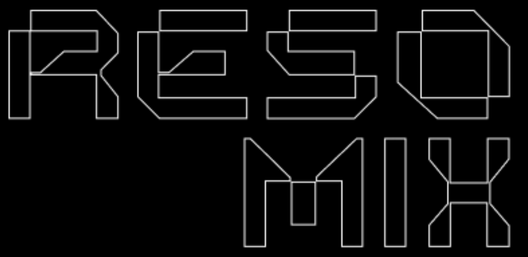

Compact logotype

In addition, in certain cases, the signet itself can be used — a brand symbol that retains full recognition while giving greater flexibility in design.

Signet (outline)

Compact logotype (outline)

SAFE SPACE

In order to ensure the legibility and integrity of the Resomix logo, it is necessary to maintain an appropriate protective field around the logo. This field defines the minimum distance from other graphic and text elements, ensuring that the logo remains clear and unobstructed in all situations.

COLORS

The color palette of the Resomix brand is based on simplicity and innovation. The main colors are pure white, light gray, neon orange and space black.

These colors emphasis the modern character of the brand, while remaining versatile in various applications.

HEX: #B9B9B9 LIGHT GRAY

HEX: #EE4A26 NEON ORANGE

HEX: #101010 SPACE BLACK

TYPOGRAPHY

The Resomix brand uses modern and clear typography. For headlines and main text, we use the strong, distinctive font Helvetica Neue, which draws attention and adds character.

In the secondary texts we use Fira Code, a font that highlights the unique nature of the brand and supports it's innovative technological vector.

In accentuated texts we use Benzin Bold, a font that provides strength and definition, ideally suited to highlight and add variety.

USE OF LOGOS ON DIFFERENT BACKGROUNDS

To ensure that the Resomix logo remains legible and aesthetically pleasing, choose backgrounds accordingly. Use the dark version of the logo on light backgrounds and the light version on dark backgrounds. Avoid using the logo on patterned or overly contrasting backgrounds, which can detract from its visibility and perception.

SCALING AND MINIMUM LOGO SIZES

To ensure the legibility and integrity of the Resomix logo, minimum dimensions must be respected when scaling it. The logo should not be reduced below the minimum width to maintain its clarity and stay recognisable. For smaller applications, we suggest using a compact version of the logo or the signet.
